

Bag It, Move It, or Leave It?

Adopt-A-Road Instructions for Handling Roadside Litter

BAG IT

These items may be placed in a bag:

- Small items made of paper, cardboard, plastic, styrofoam, wood, rubber, glass, or metal provided that the item does not have sharp edges
- Small, empty containers provided that the item does not have sharp edges

Adopt-A-Road participants are encouraged to redeem recyclable items

MOVE IT

These items should be placed alongside your stacked bags at the edge of the shoulder:

- Items with dull, pointed edges that might tear a bag
- Large items that would prevent a bag from being properly tied closed
- Heavy items that could tear a bag, provided that the item can be moved without causing physical injury
- Containers that are not empty if the contents won't spill when moved and you can identify the product as once that is not hazardous. (If you suspect that an item contains urine, do not move it.)

If in doubt, leave the item alone!

LEAVE IT

These items should be left where found without taking further action:

- Sharp, large, or heavy items that could cause physical injury if moved
- Any item that is in an unsafe location (within six feet of a traffic lane, on unstable ground, etc.)

Report these items to the Adopt-A-Road Coordinator that day or on the next working day, during normal business hours:

- Items you are not permitted to bag or move that will not be easily visible to the County road crews collecting your filled bags (if possible, place a filled bag near the item to mark its location)
- Securely closed items containing hazardous substances

Report these items to the Adopt-A-Road Coordinator that same day:

- Any item that you cannot identify and suspect may be hazardous
- Unclosed or leaking items containing hazardous substances

Call 911 if you find the following kinds of items:

- Items with hazardous material labels
- Items that could pose an immediate danger
- Items that could be crime-scene evidence

Keep a safe distance away from the item and do not disturb it in any way. If you do not have access to a cell phone or call box, then someone in your group (other than your group's safety leader) must leave the site to make the call. Unless advised to leave the area, the safety leader must stay at the site until a law enforcement officer or County representative arrives.

Items of Concern
